Kanokwan Meekaew

System Analyst

BORN : April 22, 1996

About me

PROFESSIONAL PATH

Hello, on position System Analyst, where I have been actively involved in the roles of Project Manager and Scrum Master. As a System Analyst, I have honed my analytical and problem-solving skills, ensuring seamless integration of systems and efficient workflows. Additionally, my experience as a Project Manager has equipped me with the ability to oversee project timelines, allocate resources effectively, and deliver high-quality results within specified deadlines. Serving as a Scrum Master, I have facilitated agile methodologies, fostering collaboration and continuous improvement within the team. **I still need to improve a new knowledge and new business**
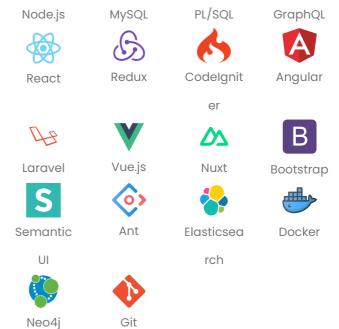

Skill

Jira	PHP	HTML	CSS
JavaScript	Typescript	Jquery	Python

Node.js	MySQL	PL/SQL	GraphQL
React	Redux	CodeIgniter	Angular
Laravel	Vue.js	Nuxt	Bootstrap
Semantic UI	Ant	Elasticsearch	Docker
Neo4j	Git		

Objective

I'm looking for new things to improve my skills which bring me to be efficiently project manager.

Personality

Friendly	Optimistic	Energetic	Hard working

Motto

You can't get everything you want the same time, but now you can do something to get one thing that you want.

Language

Thai	English
